Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I need my phone for emergencies as I travel for my job. I work with students expelled from schools in their homes. I need to be able to call for help should a student become violent. Increasing the rate, even only \$1 per month will make having a phone a difficulty. I have not gotten a raise in 3 years. I will not be able to continue phone service if rates are increased. I do hope that you will take into consideration the many people that have these phones for emergency. Please take the time to truly consider the impact of such an action.

Thank you for your time.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Lori Campbell
